yes opens doors:

Are you searching for materials for your lectures and presentations?

If you are an apprentice, student, teacher or lecturer searching for a solution to your projects, lectures or presentations, we can help.

We offer FREE product samples, materials and online design aids including, CAD models and lifetime calculators. All we ask is that you display our logo.

e-mail: yes@igus.co.uk

Testimonials

"igus® has offered great support to my project enabling me to bring an inovative lightweight pedal box design to life through the use of igus linear guide rail products. They have been generous enough to provide us with free samples for testing and for components of the racing car UH18 such as bearings to fit in the steering rack."

Tariq Willis - UH Racing Team

FREE SAMPLES

yes offers FREE samples for any student application. Working with igus® has never been easier. Simply pick up the phone, or send us an e-mail. We are happy to assist you with your design process. Find out more by visiting www.igus.co.uk/yes
